BOOK SYNOPSIS

With an innovative integration of visuals, text, and spatial graphics, Introduction to Contemporary Geography presents a modular and highly graphical springboard to introductory geography—ideal for contemporary students and learning styles. This innovative new resource partners best-selling human geography author Jim Rubenstein with environmental and physical geographer Bill Renwick, economic/political/cultural geographer Carl Dahlman, and the information architects at Dorling Kindersley (DK). The authors' approachable prose and DK's bold visual style combine to engage students with little to no science background, encouraging them to become scientifically literate and responsible consumers, readers, and voters.
