BOOK SYNOPSIS

New edition of a text with enough material for a two-semester course, and useful beyond the classroom as a reference. After overview and history chapters, coverage is arranged in sections on the design process, scientific background, work environments, time determination, and implementation of design. Each of the 35 chapters has review questions and references, and the new edition includes a disk with relevant software of various sorts, including ergonomic forms, NIOSH lifting calculations, shiftwork evaluations, and laboratory exercises on inspection, reaction time, and measurement. Konz is with Kansas State University; Johnson, U. of Arkansas. Annotation copyrighted by Book News, Inc., Portland, OR
